final_product — supplementary replay diagnostics
Primary error is at P_(K−1), output clock labels P_K. Open markers: incomplete prescribed population.
synthetic clean
synthetic noisy
bmmc
Last-input momentum error (Frobenius)
Stale current-output error (Frobenius)
Original observed solver time (s)
Synthetic: within-instance medians, then across-problem IQR. BMMC: fixed-instance replicate IQR.
Absent windows are omitted; observed/prescribed run and instance counts are in curve_summaries.csv.
